R-410A REFRIGERANT

Many refrigerants developed before R-410A contain chlorine, which is harmful to the ozone layer. R-410A is chlorine-free and therefore better for the environment. In fact, the Clean Air Act requires that as of 2010, all new air conditioning units manufactured in North America will use chlorine-free refrigerants. So by purchasing an R-410A air conditioner now, you're purchasing the latest in refrigerant technology... and helping the environment!

EFFICIENCY = SAVINGS

Your new air conditioner has a Seasonal Energy Efficiency Rating, or SEER, of 16, providing much more efficient energy use compared with the 8 SEER units found in many homes today. While the annual savings alone are impressive, the savings over time mean real dollars that stay in your pocket, not the utility company's.

16 SEER HIGH-EFFICIENCY R-410A AIR CONDITIONERS

Average Yearly Cooling Costs*

8 SEER: \$536
16 SEER: \$268

A new **EVEREST 16 SEER Air Conditioner** could save you up to 50% on your cooling bills when compared with older units, assuming new and previous units are sized to provide the same output capacity.

*Costs determined using the Energy Star® savings calculator provided by the DOE and EPA. These figures are for comparison purposes only; actual costs will vary according to personal use habits, square footage, location, how the unit is installed, the construction of your home and the area of the country in which you live.

WARRANTY

We protect your new air conditioner with a strong warranty, a testimony to our faith in the quality of this product. The EVEREST 16 SEER High-Efficiency Air Conditioner is protected by a Lifetime Limited Warranty on its high-quality compressor and a 10-Year Limited Warranty on all remaining functional parts.
