16 SEER HIGH-EFFICIENCY R-410A HEAT PUMPS

Engineered for quality and comfort.

**LIFETIME
COMPRESSOR
LIMITED WARRANTY**

R-410A REFRIGERANT

Many refrigerants developed before R-410A contain chlorine, which is harmful to the ozone layer. R-410A is chlorine-free and therefore better for the environment. In fact, the Clean Air Act requires that as of 2010, all new air conditioning units manufactured in North America will use chlorine-free refrigerants. So by purchasing an R-410A heat pump now, you're purchasing the latest in refrigerant technology . . . and helping the environment!

FEATURES

- Environmentally friendly R-410A refrigerant
- High-performance, high-efficiency compressor
- High-efficiency condenser coil made of aluminum fins and refrigeration-grade copper tubing
- An in-line filter dryer, for longer system life
- An 8-pole, 850-RPM motor; a three-bladed fan; and a louvered sound-control top
- Louvered cabinet made of heavy-gauge galvanized steel
- Attractive Architectural Gray color complements any home

EFFICIENCY = SAVINGS

So, where do the savings come in? Your new heat pump has a Seasonal Energy Efficiency Rating, or SEER, of 16, providing much more efficient energy use compared with the 8 SEER units found in many homes today. While the annual savings alone are impressive, the savings over time mean real dollars that stay in your pocket, not the utility company's.

16 SEER HIGH-EFFICIENCY R-410A HEAT PUMPS

Average Yearly Heating & Cooling Costs*

8 SEER / 65 AFUE: \$2,522

16 SEER / 9.5 HSPF / 95 AFUE: \$1,078

A new **EVEREST 16 SEER Heat Pump** could save you up to 57% on your combined heating and cooling bills when compared with older units, assuming new and previous units are sized to provide the same output capacity.

WARRANTY

We protect your new heat pump with a strong warranty, a testimony to our faith in the quality of this product. The EVEREST 16 SEER High-Efficiency Heat Pump is protected by a Lifetime Limited Warranty on its high-quality compressor and a 10-Year Limited Warranty on all remaining functional parts.
