YEAR-ROUND ENERGY EFFICIENCY

Energy efficiency is key to controlling the cost of heating your home. This furnace's 80% AFUE (Annual Fuel Utilization Efficiency) rating means 80 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems rate at 60% AFUE, meaning only 60 cents of the gas burned contributes to your home's heating. The remaining 40 cents is lost energy – wasteful and expensive. Switching to a EVEREST 80% furnace cuts that loss in half.

FEATURES

- Aluminized-Steel Tubular Heat Exchanger
- Lifetime Heat Exchanger Limited Warranty **PLUS** 10-Year Unit Replacement Limited Warranty
- Quiet, Comfortable Two-Stage Heating
- Durable Silicon Nitride Igniter
- Fully Insulated Cabinet
- Electronic Ignition Control
- Baked-Enamel Finish
- Multi-Speed, Direct-Drive Blower

FOR CONSISTENT HEATING COMFORT YOU CAN COUNT ON

Unlike conventional, single-stage furnace technology, EVEREST's two-stage (convertible) technology eliminates the temperature swings resulting from abrupt, high-stage stops-and-starts of the furnace by operating at a low heating stage the majority of the time. This enables your EVEREST GMH8 furnace to gradually and pleasantly increase the temperature of your home environment. And if low-stage heating doesn't warm your home to the desired temperature quickly enough, your furnace will shift into high stage to ensure your comfort.

Benefits of Two-Stage (Hybrid) Technology Include:

- Quiet furnace operation
- Virtual elimination of the stagnant pockets of air that can form when the furnace stops running
- Increased air filtration providing improved air quality

80% AFUE GMH8 TWO-STAGE (HYBRID) MULTI-SPEED GAS FURNACE

Average Yearly Heating Costs*

80% AFUE: \$2,193

60% AFUE: \$2,924

A new **EVEREST GMH8 80% AFUE Gas Furnace** could save you up to 25% on your heating bills when compared with older units, assuming new and previous units are sized to provide the same output capacity.

* Costs determined using the Energy Star® savings calculator provided by the DOE and EPA. These figures are for comparison purposes only; actual costs will vary according to personal use habits, square footage, location, how the unit is installed, the construction of your home and the area of the country in which you live.

WARRANTY

The performance of a EVEREST GMH8 80% AFUE Multi-Speed Furnace, high-quality aluminized-steel tubular heat exchanger is guaranteed with a **10-YEAR UNIT REPLACEMENT LIMITED WARRANTY**: if the furnace's heat exchanger fails during the first 10 years after installation while in the possession of the original owner, the owner will receive a new, comparable EVEREST furnace for free. After the 10-year period, the unit reverts to a **Lifetime Limited Heat Exchanger Warranty**, one of the strongest warranties in the industry. The warranty reverts to a **20-Year Heat Exchanger Limited Warranty** for subsequent owners. Additionally, the unit is protected by a **5-Year Limited Warranty** on all functional parts.
